SRN ADARSH COLLEGE BENGALURU-18 DEPARTMENT OF BCA 2018-2021

VISION

BCA degree is to prepare students for careers in software industry, understanding and skills related to the use of computers and its application. To impart quality computer education to enhance logical computing and programming skills.

Experienced and qualified faculty, very good infrastructure, personality development programming skills, seminars, guest lectures, workshops, industrial visits, games, sports and cultural programs.

- To produce competent Software Engineers by imparting quality education to meet the industry requirements and for serving the societal needs.
- Industry mapped training.
- Global partnerships through certification programs.
- Industry engagement platform through corporate heavy weights.
- Smarts multimedia classrooms.
- Quality placements (on campus and off campus).

MISSION

- To develop appropriate facilities for promoting research activities
- To inculcate leadership qualities among students for self and societal growth
- To nurture students on emerging technologies for serving industry needs through industry institute interface
- To enrich teaching learning process by transforming young minds to be resourceful engineers

Sitadevi Ratanchand Nahar ADARSH COLLEGE

SRN ADARSH COLLEGE CHAMARAJPET BENGALURU-18

DEPARTMENT OF B.C.A

BCA (Bachelor of Computer Applications)

Corse/ program: BCA (Bachelor of computer Applications)

Duration: Three Years

Affiliation: Bengaluru City University, Bengaluru, Karnataka

Course Outcome:

- 1) Students will able to recognize & appreciate the role of computing in a wide variety of activities & application of Modern society, including commerce, education, communication.
- 2) Analyze a given problem and develop an algorithm to solve the problem.
- 3) Demonstrate the basic technicalities of creating word document, creating power point presentation, design spreadsheet for office use.
- 4) Develop the software projects by understanding the client requirement.
- 5) Define fundamental account concept, conventions & terminologies.
- 6) Implement the various programming languages like C, C++, VB. Net,Java construct in the right way.
- 7) Able to master the basic concept and understand the database management system.
- 8) Evaluate and analyze the SDLC, understand software design, coding techniques and software testing principle.

Program Outcomes:

- 1) Engineering Knowledge: Apply the knowledge of mathematics, science, engineering fundamentals to the solution of complex engineering problems.
- 2) Problem Analysis: identify, formulate, review and analyze complex problems using various techniques.
- 3) Design/Development of solutions: Design solutions for complex problem and design the system components or processes that meet the specific needs.
- 4) Conduct Investigation of complex problems: Using various investigation techniques he can investigate large and complex problems.
- 5) Modern Tool Usage: create, select and apply appropriate techniques, resources and modern IT tools.
- 6) Communication: Communicate effectively on complex activities and with the society at large and write effective documentation, make effective presentation and give and receive clear instructions.
- 7) Individual and team work: Function effectively as an individual, and as a member or leader or project manager in project team.

Sitadevi Ratanchand Nahar ADARSH COLLEGE

[A Unit of Adarsh Group of Institutions]

5th Main, Chamarajpet, Bengaluru - 18 | www.agleducation.org

Affiliated to Bengaluru City University | Certified by ISO | Accredited by NAAC

- 8) Project Management: Effectively manage project work according to time scheduling, cost scheduling and also satisfy customer needs.
- 9) Lifelong learning: Recognize the needs for, and have the preparation and ability to engage in independent and lifelong learning.

Program Specific Outcomes:

- 1) Students will able to understand, analyze and develop computer programs in the areas related to algorithm, system software, web design and networking for efficient design of computer based system.
- 2) Apply standard software engineering practices and strategies in software project development using open source programming environment to deliver a quality of product for business success.
- 3) Student will able to know various issues, latest trends in technology development and thereby innovate new ideas and solutions to existing problems.

BCA Course Objectives and Outcomes

BCA Semester-I

1. Subject: Problems Solving Techniques Using C Programming

Subject Code: BCA-103T

Course Outcomes

On completion of this course, the students will be able to

- CO1:** Demonstrate the various concept of a programming language – C.
- CO2:** Understand the basic structure of a C program..
- CO3:** Acquiring the knowledge of debugging a program.
- CO4:** Practice to make flowchart & design an algorithm for a given problem.
- CO5:** Provide the knowledge to write programs in C to solve real world problems.

2. Subject: DIGITAL ELECTRONICS

Subject Code: BCA-104T

Course Outcomes:

On completion of this course, the students will be able to:

- CO1:** Understand the structure, function and characteristics of Theorems & Circuits.
- CO2:** Analyze the functioning of Semiconductor Devices & Logic Families.
- CO3:** Demonstrate the Number System concepts related to Boolean algebra.
- CO4:** Analyze the performance of Logic gates & Different Circuits.
- CO5:** Develops logic for Digital Circuits with real world representation.

3. Subject: Discrete Mathematics

Subject Code 105T

Course Outcomes

On completion of this course, the students will be able to:

- CO1:** Understand and solve discrete mathematical problems.
- CO2:** Impart knowledge regarding relevant topics such as set Theory, basic logic, graphs, trees or discrete probability.
- CO3:** Familiarize students with linear Algebra, differential and integral calculus, numerical methods and statistics.
- CO4:** Acquire knowledge of Groups concept.
- CO5:** Infer the knowledge about Analytical Geometry.

4. Subject: Environment & Public health

Subject Code 106T

Course Outcomes

On completion of this course, the students will be able to:

- CO1:** Understand linkage between environment and health..
- CO2:** Analyze the Factors that affect global warming.
- CO3:** Understand the problems of diseases in society.
- CO4:** Develop a perspective and justify the inventions in public health.
- CO5:** Determine environmental management ,policies and practices.

BCA Semester-II

1. Subject: Data Structures

Subject Code: BCA-203T

Course Outcomes

On completion of this course, the students will be able to:

CO1: Familiarize the students with data structures used for representing data

in memory like Arrays, Linked Lists, Graphs, Trees etc.

CO2: Analyze the performance of algorithms and to determine algorithm correctness and their time efficiency.

CO3: Implement algorithms to perform various operations on data structures.

CO4: compute algorithms of data structures on data.

CO5: Acquire knowledge of various methods used in data structures such as

brute force, divide and conquer, greedy, etc

2. Subject: Database Management Systems

Subject Code: BCA-204T

Course Outcomes

On completion of this course, the students will be able to:

CO1: Demonstrate the design and usage of Database System.

CO2: Comprehensive knowledge of database models and handling of database by using different models.

CO3: Complete knowledge of SQL and PL/SQL.

CO4: Implement the code to database transactions using SQL.

CO5: Practice to write SQL & PL/SQL programs.

3. Subject: Numerical Methods and Statistical Techniques

Subject Code: Paper-III

Course Outcomes

On completion of this course, the students will be able to:

- CO1:** Choose and apply appropriate numerical methods to obtain approximate solutions to difficult mathematical problems.
- CO2:** Demonstrate working of various numerical methods & arithmetic Operations.
- CO3:** Understand the derivation and methods of interpolation and numerical integration.
- CO4:** Impart knowledge of various statistical techniques.
- CO5:** Apply various statistical techniques such as Measures of Central Tendency and Dispersion.

4. Subject: Indian Constitution & Human resource management.

Subject Code: BCA-206T

Course Outcomes

On completion of this course, the students will be able to:

- CO1:** Define Constitution & preamble ,the fundamental rights.
- CO2:** Describe the Union and state Executive, legislature and Judiciary.
- CO3:** Familiarize Fundamental duties of the citizens and state policies.
- CO4:** Practice the concept and development of Human rights.
- CO5:** Understand the Indian Constitution rules & regulations.

BCA Semester-III

1. Subject: Object Oriented Programming- C++

Subject Code: BCA-303T

Course Outcomes

On completion of this course, the students will be able to:

CO1: Familiarize with a widely used programming concept – Object Oriented Programming.

CO2: Explain the benefits of Object Oriented Programming (OOP) approach over the Traditional Programming approach.

CO3: Describe comprehensive view of OOP concept.

CO4: Impart detailed knowledge of a powerful object oriented programming language – C++.

CO5: Write codes in C++ by applying concept of OOPs to solve mathematical or real world problems .

2. Subject: Accounting And Financial Management

Subject Code: BCA-304T

Course Outcomes

On completion of this course, the students will be able to:

CO1: Demonstrate the applicability of the concept of Financial Management

to understand the managerial Decisions & Corporate Capital structure.

CO2: Apply the Leverage and EBIT EPS Analysis associate with Financial

Data in the corporate.

CO3: Analyze the complexities associated with management of cost of funds in the capital Structure.

CO4: Demonstrate how the concepts of financial management and Investment, financing and dividend policy decisions.

CO5: Demonstrate how risk is assessed.

3. Subject: Operating Systems

Subject Code: BCA-305T

Course Outcomes

On completion of this course, the students will be able to:

CO1: Deliver a detailed knowledge of integral software in a computer – Operating System.

CO2: Understand the working of operating system as a resource manager.

CO3: Familiarize with Process and Memory management.

CO4: Acquire Knowledge of methods of prevention and recovery from a system deadlock.

CO5: Initiate the process of applying memory management methods and allocation policies.

4. Subject: Culture , Diversity & society

Subject Code: BCA-406T

Course Outcomes

On completion of this course, the students will be able to:

CO1: Examine the Diversity in Indian society.

CO2: Determine social stratification & disparities in the caste system.

CO3: Familiarize with Process and Memory management.

CO4: Practice Unity & diversity.

CO5: Understand the contemporary challenges before the Indian society.

BCA Semester-IV

1. Subject: Visual Programming

Subject Code: BCA-403T

Course Outcomes

On completion of this course, the students will be able to:

CO1: Describe the programming algorithm, process, and structure.

CO2: Define and identify the fundamental concepts of OOPs concepts.

CO3: Create and design programs by using different tools in VB .

CO4: Explain how to write and run a complete program VB.

CO5: Identify the importance of object-oriented programming in VC++ and writing programs in VC++.

2. Subject: UNIX Shell Programming

Subject Code: BCA-404T

Course Outcomes

On completion of this course, the students will be able to:

CO1: Define UNIX Operating System and understand the important aspects related to the Shell and the process.

CO2: Comprehensive introduction to Shell programming, services and utilities.

CO3: Describe the architecture and features of UNIX Operating System

and distinguish it from other Operating System Understanding.

CO4: Demonstrate UNIX commands for file handling and process control Applying.

CO5: Analyze a given problem and apply requisite facets of Shell programming in order to devise a Shell script to solve the problem.

3. Subject: Operations Research

Subject Code: BCA-405T

Course Outcomes

On completion of this course, the students will be able to:

CO1: Analyze the Linear Programming Problems.

CO2: Define Transportation method and solve the problems using different methods.

CO3: Evaluate Assignment problems with various mathematical functions.

CO4: Analyze the basic components of Network, diagrams and its calculations in Critical path method

CO5: Understand the concept of theory of games.

4. Subject: Personality Development

Subject Code: BCA-406T

Course Outcomes

On completion of this course, the students will be able to:

CO1: Determine the larger issues of life and living.

CO2: Understand the various concepts for personality development.

CO3: Develop skills to attend interviews.

CO4: Acquire Knowledge of overall personality development.

CO5: Develop the various skills needed for leading a life worth living.

BCA Semester-V

1. Subject: Data Communication & Networking Subject

Subject Code: BCA-501T

Course Outcomes

On completion of this course, Students will be able to:

- CO1:** Understand the fundamental concepts of Data communications and Networking.
- CO2:** Identify different components and their respective roles in a computer communication system.
- CO3:** Conflict issues and resolution techniques in data transmission.
- CO4:** Define concepts and terms related to data communication and Networking, general principles of circuit and packet switching
- CO5:** Describe the mechanism and techniques of encoding.

2. Subject: Java Programming Language

Subject Code: BCA-504T

Course Outcomes

On completion of the course students will be able to:

- CO1:** Describe Java application programs using OOP principles and proper program structure.
- CO2:** Understand the fundamentals of object-oriented programming in Java.
- CO3:** Write the syntax and semantics to write Java programs.
- CO4:** Familiarize with the concept of inheritance, polymorphism, packages and interfaces.
- CO5:** Create packages and interfaces & implement error handling Techniques using exception handling.

3. Subject: Software Engineering

Subject Code: BCA-502T

Course Outcomes

On completion of this course, the students will be able to:

CO1: Describe the branch of study associated with the development of a software product.

CO2: Acquire basic knowledge about the pre-requisites for planning a software project & learn how to design of software.

CO3: Perform testing of a software.

CO4: Familiarize with the concept of software engineering and its relevance.

CO5: Analyze existing system to gather requirements for proposed system & Skill to design and code a software.

4. Subject: Computer Architecture

Subject Code: BCA-503T

Course Outcomes:

On completion of this course, the students will be able to:

CO1: Demonstrate Digital logic Circuits & Functions.

CO2: Understand Data representation & various transfer operations.

CO3: Design Basic Computer Organization & design.

CO4: Design Central Processor Organization with different addressing Modes and instructions.

CO5: Design of Input-Output Organization with peripheral devices and understand memory organization .

Sitadevi Ratanchand Nahar
ADARSH COLLEGE
[A Unit of Adarsh Group of Institutions]

5th Main, Chamarajpet, Bengaluru - 18 | www.agleducation.org

Affiliated to Bengaluru City University | Certified by ISO | Accredited by NAAC

5. Subject: Microprocessor And Assembly Language

Subject Code: BCA-505T

Course Outcomes

On completion of this course, Students will be able to:

- CO1:** Understand the structure, function and characteristics of Microprocessor Organization.
- CO2:** Analyze the design of the 8085 functions and components with Programming model(assembly level).
- CO3:** Practice programming techniques with different instructions.
- CO4:** Implement Memory Interface with mapping and Interrupts.
- CO5:** Design Interfacing of peripherals and different Microprocessors.

6. Subject: Project

Subject Code: BCA-506P

Course Outcomes

On completion of the course students will be able to:

- Skill to apply Software Development Cycle to develop a software module.
- Ability to use the techniques, skills and modern engineering tools necessary for software development.
- Develop a software product along with its complete documentation.

7. Subject: Banking & Finance

Subject Code: BCA-305T

Course Outcomes

On completion of this course, the students will be able to:

- CO1:** Determine the evolution ,meaning of modern banking and finance.
- CO2:** Write the operations of deposits,loans and advances.
- CO3:** Familiarize with banking concepts.
- CO4:** Practice Tally balance sheet.
- CO5:** Acquire the knowledge of maintaining book keeping.

BCA Semester-VI

1. Subject: Systems Programming

Subject Code: BCA-601T

Course Outcomes

On completion of the course students will be able to:

CO1: Understand the working of different translators viz. Assembler and Compiler.

CO2: Familiarize with various software development tools.

CO3: Detailed knowledge of Compilation process of a program.

CO4: Acquire Knowledge of internal working of macro processor.

CO5: Familiarization with Assembly language & Understanding the working of linker and loaders – components.

2. Subject: Web Programming

Subject Code: BCA-603T

Course Outcomes

On completion of the course students will be able to:

CO1: Define various Web Technologies , design and implement static and dynamic Web pages.

CO2: Acquire fundamental skills to maintain web server services required to host a website.

CO3: Develop web pages using HTML and Cascading Style Sheets.

CO4: Create XML documents and Schemas through programs.

CO5: Acquire Knowledge of client-side (JavaScript) and server-side scripting (PHP, ASP.NET) languages to build dynamic web pages.

3. Subject: Cryptography & Network security

Subject Code: BCA-603T

Course Outcomes

On completion of the course students will be able to:

CO1: Define Cryptography & Security goals

CO2: Practice fundamentals of Mathematical Cryptography

CO3: Understand the Encipherment using Modern Symmetric-key Ciphers.

CO4: Implement Cryptography Hash functions.

CO5: Acquire Knowledge of Security at the Application Layer with protocols.

4. Subject: Theory Of Computation

Subject Code: BCA-601T

Course Outcomes

On completion of the course students will be able to:

CO1: Define Finite Automata theory and its applications.

CO2: Practice regular expressions applications and expressions.

CO3: Develop Context-Free Grammar with the languages PDA & CFGs.

CO4: Determine Pushdown Automata.

CO5: Acquire Knowledge of Turing machine and its concepts.

5. Subject: Project

Subject Code: BCA-604P

Course Outcomes

On completion of the course students will be able to:

- Skill to apply Software Development Cycle to develop a software module.
- Ability to use the techniques, skills and modern engineering tools necessary for software development.
- Develop a software product along with its complete documentation.

Affiliated to Bengaluru City University | Certified by ISO | Accredited by NAAC

6. **Subject: Computer Application & Information technology**

Subject Code: BCA-606T

Course Outcomes

On completion of this course, the students will be able to:

- CO1:** Infer the knowledge of Block diagram of Computer System.
- CO2:** Understand the Database management system.
- CO3:** Practice MS-Office (Word, Excel, PowerPoint)
- CO4:** Acquire Knowledge of Network & Security.
- CO5:** Analyze the concept of E-Banking & Tally.

Questionnaire for Indirect Measurement of Program Outcomes

SRN Adarsh College, Chamrajpet, Bengaluru (2020 - 21)

Department of M.COM

Questionnaire for Indirect PO attainment

Course: M.COM

Date: 24/08/2021

Dear Student,

It is our pleasure to note that you are completing your PG graduation. We wish and hope that you have assimilated all that is required for your successful career.

Kindly give your response on the following outcomes you have gained through your 2 year PG program.

Head of the Department
(Signature)

At the end of my PG program, I am able to:

Ranking: 3 - strongly agree, 2- Agree, 1- Average

- | | | | |
|---|-------------------------------------|-------------------------------------|--------------------------|
| 1. Apply the basic knowledge of Commerce and fundamentals to solve problems. | <input checked="" type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| 2. Identify, formulate and analyze complex Problems. | <input checked="" type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| 3. Design solutions for complex problems With a concern for public health and Safety, cultural, societal, and environmental Issues. | <input type="checkbox"/> | <input checked="" type="checkbox"/> | <input type="checkbox"/> |

PO/CO attainment

Conclusion

- The students and parents are informed about the outcome of the courses in the orientation Program Organized at the beginning of the every year. The Principal while addressing the students and parents communicates the vision, mission and core values of the institution.
- Program Outcome and Course Outcome of all the Courses are informed to students through Notice Boards and College Website.
- The outcome, specific outcome and course outcome are prepared keeping in mind the core values of the institution such as nurturing the atmosphere of academic excellence, innovation and promoting human values. Teachers communicate the outcomes of each course to the learners for their better understanding.
- Many faculty members are involved in curriculum design and academic committees of Bengaluru City University of Bengaluru as members of board of studies and syllabus framing committee members. Their inputs are also considered in syllabus framing for incorporating course outcome. Faculty members attend syllabus revision workshops to understand the needs and outcome based nature of revised syllabi.
- Direct and indirect attainments of program and course outcomes were evaluated through semester-end examinations conducted by the University and Exit survey conducted by College respectively. Various activities, workshops, seminars, group discussions, college trainings, value added courses were provided as remedy to overcome the shortcomings in attainment these outcomes.
