## 2. Home and Community composting and Waste Management :12/2/2021

When you start composting, you automatically begin segregating waste at home. Wet waste like fruit and vegetable peels must go to the green bin for composting; dry waste like paper, metal, glass must go to the blue bin for further recycling; Trash like medical waste, sanitary napkins, diapers must go to the red bin to be safely disposed of by authorities. Also, there should be a separate bin in a colony for collecting e-waste. A hands-on workshop was organized on waste segregation and home/kitchen composting was organized. Dr. Rajendra Hegde, Founder, BRICS conducted the workshop and advised students to start small kitchen gardens in their houses and convert the kitchen waste in to compost for this garden.

## 3. World Environment Day: 5-6-2020

The main idea behind celebrating World Environment Day is to highlight the importance of the environment and to remind people that nature should not be taken for granted. According to the UN, this day provides us with an opportunity to broaden the basis for an enlightened opinion and responsible conduct by communities, enterprises and individuals in preserving and enhancing the environment. It is celebrated across the globe to respect and acknowledge everything that the environment has given us and to take the pledge that we will protect it. On this day, governments and normal citizens focus their efforts on a particular environmental issue to generate awareness. World Environment Day was celebrated in the campus by planting saplings in the campus on 5.6.2020. As the theme of World Environment Day 2020 was “**Time for Nature and Celebrate Biodiversity**”, the faculties, Principal and staff planted various plants. Due to Covid students were asked to plant saplings at home or water the plants at home or to prepare seedballs. Many a students participated enthusiastically.
